PRODUCT TECHNICAL DATA SHEET

600 TC 185

Product Code: 600 TC 185

Product Description: 600G Tonneau Cover 1.85m

Product Weight: 600g/m²

Emboss Finish: Matt

This product consists of a PVC plasticised formulation coated on a polyester woven fabric according to our manufacturing technical data sheet. The finished product is inspected and packaged in 30m or 50m rolls at 1.83m wide. This product cannot be HF welded, only Hot Air welded or glued with pvc glue.

Typical Properties

Test	Method	Unit	Warp	Weft
Tensile Strength	SANS 1421: 1998	N/50mm	2500	2200
Tear Strength	ISO 4674-1: 2016 Method B	N	350	250
Weld Adhesion	ISO 2411: 2017	N/25mm	40	
Flame Retardancy	SANS 1287-1: 2007	s	NA	
Electrical Resistance	SANS 5880: 2008	MΩ	NA	
Fusion	5min in Acetone		No flaking	

The information and results outlined in the data sheet are indicative based on historical data. It is always in our best interest to ensure that these values are repetitive and that the product is of consistent quality. The values should however be used as a guide only and are without warranty. It is therefore recommended that the product performance is tested by the user for its intended end application.
